EXIDE HOME

For more than 75 years, Exide has proudly powered homes across the country, setting benchmarks as a true pioneer amongst the consumers. With a legacy of trust and a constant drive for innovation, from introducing tubular technology to redefining performance standards, Exide has always understood the evolving power back-up needs of modern households.

ZINDAGI NON-STOP

Introducing Exide Home Inverters & Batteries

– powered by PLEX Technology. Designed for reliability, performance, and endurance, the Exide Home range sets a new benchmark in power back-up solutions.

The **Exide Home Inverter range** is built to take on heavy load, deliver consistent performance, and is backed by the longest warranty in the category.

The **Exide Home Inverter Batteries** are engineered for longer life, higher power output, and zero maintenance – even through frequent, extended outages.

With nationwide reach and trusted service, Exide's new-age range of power back-up solutions ensure your home stays powered, and your Zindagi remains non-stop.
